

Cacela Dog Haven

.....every dog deserves a loving home

DOGGY STORY : MAGNUM

Born: 7/2020

Rescued: 7/2020

Adopted: 3/2024

No: 279

Magnum was brought to us when his eyes had not yet opened.... so very young. He was found wrapped in a plastic bag and dumped in a rubbish bin, by Paula Beaumont. Although we tried to include him in Luna's (our super-mum) feeding cycle, she unfortunately did not have enough milk to feed him in addition to her own litter.

So, Sharron had to resort to bottle feeding every 3/4 hours. Although he had a few injuries which were thought to be a result of trauma, this little dude seemed to have the biggest appetite ever! At two weeks, Magnum weighed 1.5kg which seemed to indicate that he'd be a big lad.... also suggested by the fact that he was eating up a storm!

Apart from watching him grow almost daily, at about 3-4 weeks old, it was clear that his personality resembled his name..... and clear too that whoever had dumped him, had missed out on this lovely little chap who had found his bark and chewed his toys!

Although there was an attempt to place Magnum with a family, the young children were not up to coping with a boisterous puppy, so we're looking for another home for Magnum.

Magnum has been part of the training programme and is doing very well.
