

Cacela Dog Haven

..... every dog deserves a loving home!

DOGGY STORY: SKY

BORN:

Feb 24

RESCUED:

May 26

ADOPTED:

July 26

ADOPTION No:

334

We immediately took her for a Vet check.... no chip found! She has a wound to the neck that's been attended to. She's been chipped, vaccinated and given tick and flea treatment. She was tested for leish, heartworm and tick fever..... thankfully, all negative.

We have named her **SKY** and anyone who knows/owns her will have to show proof of ownership. **SKY** enjoyed a nice warm bath later and she'll be on a special eating plan with three small meals a day.... it's important that she gains weight....her weight is only 10kgs.
