## DOGGY STORY: ALVA (Alantejo/Mastiff)

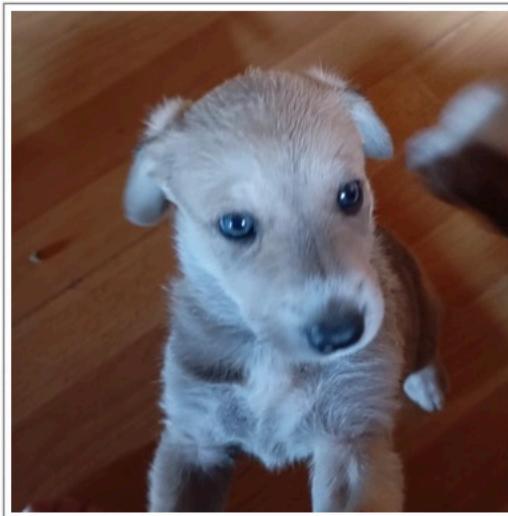

**BORN:**  
Mar 25

**RESCUED:**

Just 4-5 days old, with their eyes still closed, these four beautiful Alentejo/Spanish Mastiff pups (1 x male, 3 x female) were found in the trash, dumped as though they were mere garbage. Bottle feeding began immediately and, as you can see, they are thriving! Now weighing around 6kg (8 weeks old), we think they'll be around 40kg when fully grown. **They'll be ready to leave for their new homes around 19 May...** chipped and fully vaccinated. All named after Vikings, we are so keen to find families for them! This little girl is really pretty..... she has a sweet personality and is going to make a fabulous pet.

..... every dog deserves a loving home!

The lovely ALVA has been adopted by Romy who is a long-time friend and volunteer.... she took Kiera in November 24 and her daughter offered a home in Germany to a CDH rescue, Rosinha, in June 2023.

We were thrilled that ALVA was adopted by Romy.... she's going to be extremely happy and we'll get to hear about her often and even see her, occasionally.
