This lovely little girl was found abandoned, in the Corte De António Martins area and is around 3 months old. She was very quiet in the car on the way to have her Vet check and as she was a bit ill, she slept most of the way. She was quite calm at the Vet's rooms where she was vaccinated and tested negative for any of the nasties. She's being fostered at the moment, but as this family are moving a home, rehoming this puppy is a priority.

We're thrilled to advise that a local couple, Pam and Carl, have adopted Ella.
