ADOPTED:
Jun 25

ADOPTION No:

LEXY and her four siblings were found in a forested area by Denise who is a friend and supporter to CDH and Mum to the gorgeous ELSA.... apparently Elsa is an expert at finding these puppies when she's out walking with Denise. This is not the first litter that Elsa has found in that same area. These puppies were only a few hours old and of course, the 2-hour feeding programme was immediately implemented. Now, having had their Vet checks, they are healthy, chipped, fully vaccinated and dewormed. **Nov Update:** They are fit, healthy, loving, fully of energy and totally ready for their "forever" homes!

LEXY has been adopted..... she went off to Germany to join her new family. This adoption came about because one of our volunteers, Romy, recently adopted a dog from us and as an amazing CDH ambassador, she introduced her friends to CDH.

This is her bed, equipment and toys waiting for her in Germany.

Farewell to Auntie Sharron's
"Sexy Lexy"
We will miss you lovely girl...
Be happy!
