.....every dog deserves a loving home

## DOGGY STORY : MR BEAN

**Born:** 2/2017

**Rescued:** 8/2020

**Adopted:** Apr 26

**No:** 322

Mr Bean and his sister Pitucha, lived happily with their human Dad who became ill with cancer and after some months, sadly passed away. When he was hospitalised he asked APAR to look after his pups and delivered them with two dressing gowns and a pair of slippers that smelt of him.

Although he fully intended to return home to them, that was not to be.... his wife was unable to care for his beloved companions and went back to the UK, leaving Mr Bean and Pitucha at APAR. Because they were becoming more and more depressed, in the summer of 2019, CDH received a plea for help from Louise (a volunteer at APAR) and we decided to take them both, with the intention of finding them homes.

One year later, CDH took over their care and ownership. Whilst he likes female company, he's not too fond of the males.... and he chases cats!

Mr Bean is boisterous, inquisitive and intelligent - this boy would respond well to doggy schooling. Although he loves going out for a walk, he needs more training on the lead. He would do well as a single pet or homed with a female companion.

Vaccinated, chipped and sterilised, Mr Bean is ready for his forever home.
