

Cacela Dog Haven

.....every dog deserves a loving home

DOGGY STORY : DINA

Born: 6/2020

Rescued: 1/2021

Adopted: XXXX

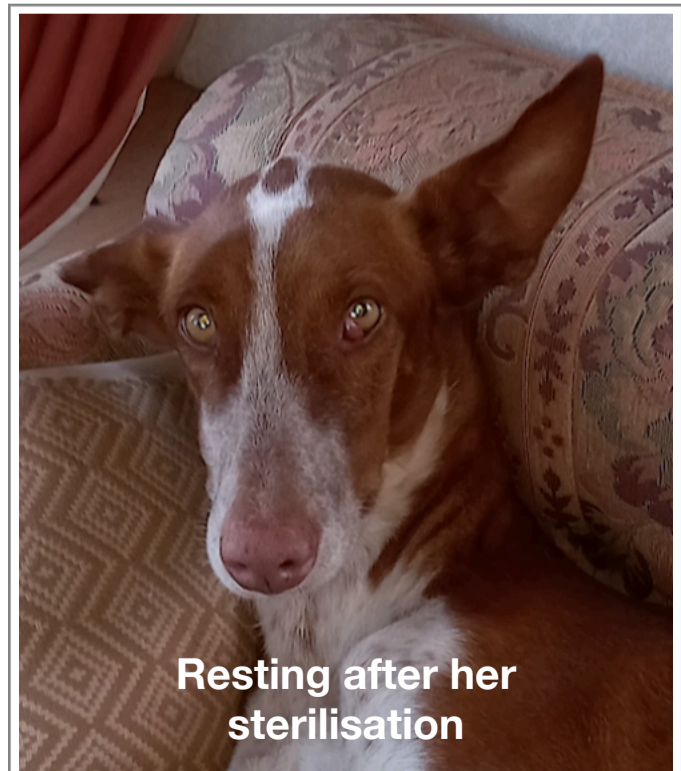

No: XXXX

Dina is Bruce's friend belonging to the same neighbour and rescued at the same time.

After some time trying to persuade the owner, CDH took ownership of Dina who was extremely thin, with lots of ticks. Like Bruce, she is still young (only 10 months old) but certainly looks much older. This neighbour wants to keep dogs but doesn't want to have the associated financial and emotional responsibility.

The saddest part about this is that after signing Bruce and Dina over to CDH, he has new, beautiful puppies that are left outside overnight in the cold weather we've experienced this winter. CDH has always treated his animals as extended family and we try to help these poor dogs with food, shelter, medication, tick/flea collars and Vet visits.

Despite being thin, Dina has boundless energy and jumps and charges around the haven saying hello to everyone. She's been chipped, vaccinated and sterilised.

Resting after her
sterilisation

Dina has gone to live in Suffolk with the son of an amazing CDH friend and benefactor, Caroline Burgess. She has arranged for many adoptions of CDH dogs... all living happily now throughout her village. Dina has gone to live with her son.
