Kacey (around 5-years old), was found heavily pregnant, dumped in the street because her owner apparently didn't want to sterilise her.

On Wednesday, 1 November Kacey started giving birth and eight beautiful puppies later, she settled down and proceeded to encircle them with her paws, constantly nudging and fretting if one moved away. She was obviously nervous about protecting her babies and only Sharron could approach..... we definitely didn't want her to feel even more anxious.

NALA is one of the puppies and we think their Dad was perhaps a Rafeiro do Alentejo..... they are of course, all beautiful! We suspect that she will be quite large.

NALA has gone to live in Quarteira with a local Portuguese family who are particularly fond of the Rafeiro do Alentejo breed and their dog of that same breed, is quite elderly... he's going to have quite a time with this bouncing bundle. The great news is that we're sure to get lots of posts about how Nala is doing.
