Scruffy was around 9-years old when his human Dad passed away in August 23. His Vet checks have confirmed that he weighs a healthy 12kg and is ready for rehoming. He has been chipped, sterilised and all vaccinations are up to date.

Scruffy's socialisation has been a pleasure and it's quite obvious that he came from a loving and caring home. He'll be excellent company on a stroll to your local café and is happy to sit and watch the world go by watching you sip your cappuccino!

This sweet boy, whilst docile, certainly has a spring in his step. He is fine with other dogs, house-trained and ready for his forever home!
