## DOGGY STORY : ALFIE - Yorkshire Terrier

**Born:** 2013

**Rescued:** 12/2022

**Adopted:** 11/2023

**No:** 269

Alfie's story is very sad. He lived with his lovely owner in Tavira and was spoilt and taken out often for a walk. His owner became ill quite quickly and a good friend asked CDH to take care of Alfie until she was well. Unfortunately, she didn't recover so the paperwork was done to surrender Alfie to the haven. He's an intelligent little guy and extremely energetic for a 10-year old terrier.

He has had his veterinary checks and has been sterilised. Alfie is more than ready to go to his furever home.

Update - November 2023 - Alfie has gone to live in Vila do Lobo and we're sure to receive regular updates on how he's doing. His new home has a big garden so we're sure that, being the energetic oldie that he is, he'll love charging around there.
