.....every dog deserves a loving home

## DOGGY STORY : KACEY

**Born:** 10/2018    **Rescued:** 10/2023    **Adopted:** XXXX    **No:** XX

Kacey (around 5-years old), was found heavily pregnant, dumped in the street because her owner apparently didn't want to sterilise her. Sharron and Treve immediately jumped to the rescue and brought her to CDH. Kacey enjoyed (per day) 12 chicken legs, eggs, biscuits and puppy food (to promote the production of milk) fed to her by Sharron and the other supplements that a malnourished, pregnant girl needs! This was probably the first time in her life that Kacey has felt safe and loved.

On Wednesday, 1 November Kacey started giving birth and eight beautiful puppies later, she settled down and proceeded to encircle them with her paws, constantly nudging and fretting if one moved away. She was obviously nervous about protecting her babies and only Sharron can approach..... we definitely don't want her to feel even more anxious.

This will be Kacey's last litter and she'll get to enjoy her babies, probably for the first time because her other litters were more than likely removed as soon as the puppies were born. As Sharron has vowed..... nobody is going to take these babies from her. Once the time is right, Kacey will be steriised and we'll be looking for that loving family out there, to give her a home.
