## DOGGY STORY : RONNIE

**Born:** 7/2023

**Rescued:** 7/2023

**Adopted:** 10/2023

**No:** 268

This beautiful little guy was found, just a day old, in a garbage bag in a bin near Alcoutim.

Although he does have some issues with his legs, he is being treated with glucosamine to strengthen his bones and it's going really well. We suspect that he may grow to be around 30-40kgs in size! The Vet has prescribed Glucosamine to help with strengthening this little monster's legs!

Ronnie, now called Rusty has left for his forever home in the UK.
