MARTA and her three siblings were found abandoned, just dumped as though they were nothing more than garbage.

Vet checks have confirmed that these puppies are all fit and healthy..... first vaccinations done and they'll be ready for adoption in a few weeks.... RESERVE now!

They do look like they may have been crossed with a Pinscher, but without any history, we're not able to confirm that.

They are going to be quite small and we're hoping to find really great homes for them.
